most natural looking ASA decking
material. Available in 3 colours*

BRITE
COMPOSITE DECKING SOLUTIONS

WHAT IS ASA DECKING?

ASA is quite simply the best synthetic material available. ASA is considered the premium material, offering a double protective skin providing maximum protection against stains, cracking, mould and mildew, adding the elements for an extra-long life. Best of all, every Titanium Range deck is backed by a 30-year warranty.

Titanium is made from FSC® 100% Acrylonitrile Steyrene Acrylate Copolymer (ASA), 50% Foamed Polyvinyl Chloride (PVC), 40% Calcium Carbonate (CaCo3) and 10% UV stabiliser including anti-mould.

Long Lasting, Superior Durability

Titanium offers maximum protection against stains, splinters, scratches and mould.

Realistic Appearance

Most stunning natural wood appearance on the market. It's better than PVC, WPC and Capped decking.

Lightweight

30-40% lighter than standard WPC boards. Its heat absorption rate is also much lower, ideal for pool surroundings and outdoor decking areas.

Best Weather-Resistant Resin Available

Titanium is 10x better than ABS for anti-aging and 100% UV resistant.

Can Be Built Low To The Ground

Can stand up to both moisture and other 'nasties' such as oils, fats and animal waste, allowing no problems when building low decks for pools, spas and jetties.

Safe & Child Friendly

Anti slip, no splinters, no nail heads sticking out & free from hazardous substances.

140 MM COMPACT DECK WOOD GRAIN SURFACE

Board Dimension:

140 mm (W) x 24 mm (D) x 5.8 m (L)

Board Weight: (+-) 13.5 Kgs

FASCIA

Fascia boards come in all three colours matching the decking boards. Dimensions are 150mm x 12mm x 2900mm

ASA DECKING MATERIAL COMPARED TO OTHER CO-EXTRUSION MATERIALS

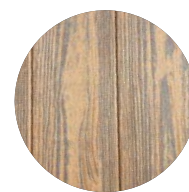

There are a number of advantages that ASA decking materials provide over the competition, but there's also one important consideration: this decking material is more expensive. In fact, the reason that so many companies offer PVC/ ASA mixtures rather than true 100% ASA decking is to simply reduce costs. For those discerning buyers who want the best of the best; ASA quality cannot be surpassed.

COLOUR CHOICE

Three Colours, namely Silver Grey-The Architects Choice, PacificMerbau-Tropical look and Desert Sand- Beach Collection are available ex stock.

Silver Grey

Pacific Merbau

Desert Sand

*Additional colours available on order for large projects-6-8weeks delivery time.
Minimum order 80sqm
